Karate ® FOUNDATION FOR CHILDREN

KARATE FOUNDATION FOR CHILDREN is a non-profit Charity Organization. It focuses on programs that empower children through community projects and equip them with social, academic and sport skills they will need to excel in life.

KARATE FOUNDATION FOR CHILDREN considers karate, a self-defense sport, as a vital tool in accomplishing our goals.

It has a unique ability to transcend social barriers, bring poor children together, and inspire them to participate in international tournaments in order to achieve success.

Our vision is the following, supporting underprivileged children all around the world and helping federations, clubs, dojos and small groups to acquire more karate skills and train with great world champions.

We are going to plan and execute a lot of programs to help poor children be strong. We believe it is utterly important to give our attention as a global community to children who have suffered from great hardships in their early lives.

Jordan officially The Hashemite Kingdom of Jordan is a sovereign Arab state in western Asia, on the East Bank of the Jordan River. Jordan is bordered by Saudi Arabia to the south, Iraq to the north-east, Syria to the north, Israel and Palestine to the west.

The Dead Sea lies along its western borders and the country has a small shoreline on the Red Sea in its extreme south-west, but is otherwise landlocked. Jordan is strategically located at the crossroads of Asia, Africa and Europe.

The capital, Amman, is Jordan's most populous city as well as the country's economic, political and cultural centre.

Jordan is a relatively-small, semi-arid, almost-landlocked country with an area of 89,342 km² (34,495 sq mi) and a population numbering 10 million, making it the 11th-most populous Arab country. Sunni Islam, practiced by around 95% of the population, is the dominant religion in

Jordan that coexists with an indigenous Christian minority. Jordan remains to be considered as among the safest of countries in the Middle East, even after the deteriorating situation of the region following the Arab spring in 2010s. Jordan prides itself on being an "oasis of stability" in a turbulent region.
